Clearly Friends Forever

Clearly Friends Forever

Some things were MEANT to be...

All four years we've spent in classes,
Amazing how fast the limelight passes.
Photos pasted on the walls,
Voices echoed through the halls.
Learned our lessons from our teachers,
Screamed our hearts out from the bleachers.
Climbed the bricks and wrote our names,
We know the rules, We've played the game.

MCAS, A.P.s, junior thesis;

SATs we took to pieces.

Black and Gold with lots of spirit,
Shout the letters, let them hear it!

N for no way D-Y beats it,

A for art when music meets it;

U for use your brain and dream it,

S for set your goal and mean it;

E for earn your right to save it,

T for thanks to all who gave it.

Thank you, teachers, parents, friends,
As this chapter of life ends.

We leave our Nauset close behind,
Within us still, in our soul and mind.

And though we may now be apart,
Nauset's where we found our heart.

As the last moments of senior year are going by, you think of what is to come. But I don't just want to think of the future, I want to remember the past. There are the older memories like spending my nights in town with a skateboard and some friends, or the front-yard football games down the street. Not to forget the more recent memories such as vehicles, nonstop surf sessions, and bonfires. Now I am at an end, but also at a new beginning, I thank my friends and my family for lending me a hand.

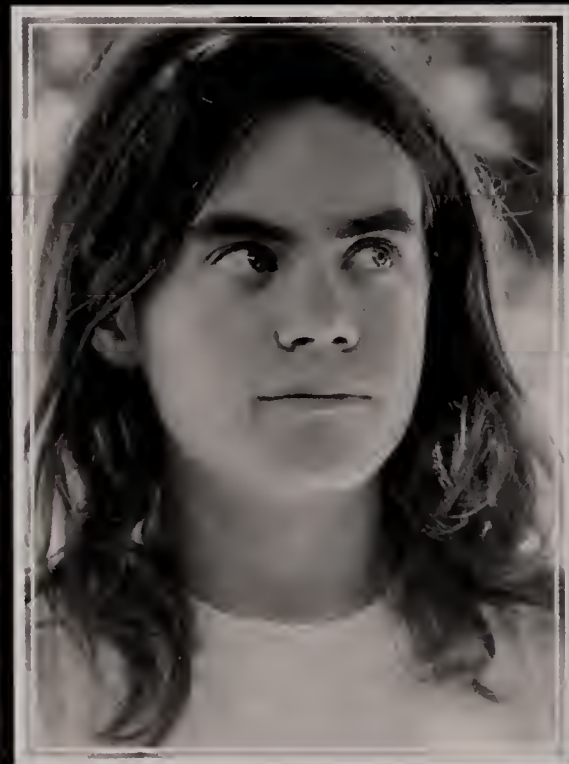

Alana Joye Daley

I don't know how ready we are, yet, I think we have enough wisdom learned over the years from friends and family that we can make it. This is to the long classes and the longer nights, to good friends and good times, to the sights seen and those yet to be seen.

I, Forrest Hopkins, bequeath my sanity to whoever may find it.

-Albert Einstein*

Many of us, as freshmen, come into high school hating the fact. We incessantly complain of our disinterest in education, and our reluctance to be here, of the essay due tomorrow and the people we don't like. We have all heard, far too many times, how sick we are of tater-tots and chicken patties. But that's just what we say. I know I wouldn't change a thing, and I've had a great time (despite tater-tots and essays). And for some, whenever you may read this - The Game.

First of all, I'd like to thank my family: **Mom & Dad**, I can't thank you enough, you have inspired, guided and motivated me giving me the strength, persistence and determination in life to succeed. **George & Stephen** you have been the best brothers I could ever ask for to say the least, I am so proud to have you guys guiding me through life. To all my friends that have stuck with me until the end, thanks for the endless laughs and memories it's truly been an unforgettable journey. Finally high school is over, but at the same time it seems like it just started. Even though I'm glad it's over I know I'll miss it someday. I want to say thank you to my mom, I love you, and everybody else who has helped me through the years. Guys and girls, you know who you are, stay up. My boys Will, Kmc, Unger, Andy, Grant, Phur, Scalley you guys made high school mad fun and I'll always remember that. For the people still stuck in high school, keep it ragin' and I wish everybody else the best of luck. Peace out Nauset.

-Bob Rice

It's weird to feel nostalgic for something that hasn't happened yet. And we've grown up a lot but we're still basically the same. We're all similarly different. It's been amazing and boring and adventurous and awkward and eye-opening and terrible. But I don't feel like I'm closing a chapter of my life, I just feel like I'm continuing the story. We'll all meet up again in weird places because life is weird and we love each other. So until we meet again at a Liza Minnelli concert, I'll miss you.

I, Nicki Stein, bequeath Ocean 104.7 to Sam Poole, all the ticks on Cape Cod to Jackson Niles, and Barbar the lovable elephant to Phil.

Mom, Dad thanks for your years of support, I really and truly appreciate it. Nathan, best bud forever, good luck in golf, see you on T.V. John, live it up man, good luck with your flying career. Lyndsay, thanks for being a part of my life, you mean a lot to me! Porter, good fishing with you man, good luck in the future. Paul, Jeff, take the golf team to the top next year, #1 all the way!!!

Change. The only constant in the universe, its pandemic tides define every aspect of our lives. Nauset was a great change, and while I had to leave the people and places of the past behind, the world ahead was more than worth it. Thanks to Dylan for inviting me down this path and walking it with me, Hilary and Rachel for giving me confidence when I see only chaos, and our forerunners, the seniors of yesteryear, for their guidance on this great journey. Onward to victory.

What a ride. What a life-threateningly insane, adrenalin-charged, breakneck-speed roller-coaster of a ride. For all its unexpected bumps, startling jolts, and consistently erratic changes of direction, I've enjoyed it and learned from it, and will take what I've learned to the next stage of my life. So, I would like to acknowledge and thank all those people who've stood with me these past four years (you know who you are, hopefully); you have made my life what it is. "We're hoping that in these personal fitness classes, fitness will become a priority in everyone's lives."

Michele Pavlu

Athletic Trainer

"I've seen students that wouldn't ordinarily participate in gym activities after school and more apt to get a good workout. I wish more people would take advantage of the great opportunity that's been given to us."

Nauset High School has been given the chance to share the new and improved Fitness Center with students, faculty, and the community; providing all with the opportunity to stay in shape.

The goal of the Fitness Center is to work on personal fitness and stay physically healthy. The new Tri-Fit Technology has allowed individuals to receive a personal fitness and diet plan, based on a test on body fat percentage, flexibility, and strength.

The new classes offered are Fitness Center Workout (introductory course), Personal Fitness Training (1 & 2), Outdoor Fitness and Trecking, Rackets and Clubs, and Functional Core Training and Spinning.

"As an athlete at NRHS, the new fitness center has been very helpful for me to prepare for competition."

-Sophie Eldridge

"The new fitness center has improved my ability to compete at the highest level possible, thanks to Mrs. Quill."

-Manny Rebelo

In addition to the incredible fitness center, Nauset also built a new athletic training area. The clean and spacious room allows athletes with injuries to be observed and treated much more effectively than in the past. The athletic training area includes more storage to keep supplies and equipment within reach. Being located right next to the fitness center, Michele is able to keep a close eye on the workout equipment that is being used by students.

STUDENTS PEDAL ALONG

Personal goals are being reached every day by Nauset students. Nick Fiske, Manny Rebelo and Sean Baker are working to build their endurance.

On behalf of the Nauset School Community, we give special thanks to the Kennedy Family for their generous donation enabling us to create our unimaginable Wellness Center. We would also like to acknowledge the Conway's thoughtful donation of the decorative plants that brighten our fitness center. This generosity is greatly appreciated and this new addition to our campus has added to our school's positive environment.

"The Fitness center has been an amazing addition to our P.E. and athletic programs. Our students and athletes have benefited both physically and mentally."

-Ms. Stevens

Remember the Freshman History Project! Each year the History department assigns a project in which students are required to represent a period in time. The project highlights the knowledge the students have gained through their research as well as throughout the rest of the year. A hand built model is completed and each student delivers a ten minute presentation based on a moment frozen in time.

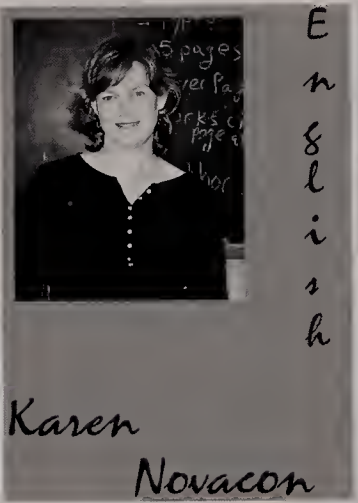

School Within A School

"In just two years I have learned so much about myself and the world around me and I owe it all to the SWS program. The journey started at the end of the summer, bright and early, when we all conquered the White Mountains of New Hampshire. Throughout junior year in U.S. History, we covered topics that I never imagined I would cover in a history class. In English I've read books that really challenged my beliefs. They were inspirational, heart wrenching and real. My year came to an end when we ventured off to Philadelphia, Pennsylvania, where we became Amish for one day and saw where America was really born. Senior year finally came and Diane and Karen's Facing History course taught me that coming out of my comfort zone is hard but it's ok, especially when talking about difficult topics like racism and genocide. I feel more prepared for life after Nauset High and I can truly say the SWS program helped me get to this point."

Science Is A Verb

Science at Nauset encompasses a wide range of topics and activities. There are over 15 different types of science classes from which to choose, and each offer their own unique way of learning based on the topic and the teacher. Hands on activities, projects, experiments, and outdoor excursions allow students to engage in a variety of experiences and the wide selection of topics enable students to explore the many different aspects of 'Science'.

The World In a Classroom

Mrs. Smith

Spanish Teacher

"The growth that my students go through over a year of language study is amazing. I love teaching Spanish because the progress and learning process is visible and rewarding!"

Another great feature of Nauset is its wide selection of languages and exchange programs. The language program includes Spanish, French, German, Latin, and American Sign Language. The language teachers do an amazing job introducing the various cultures to their students by providing interactive activities.

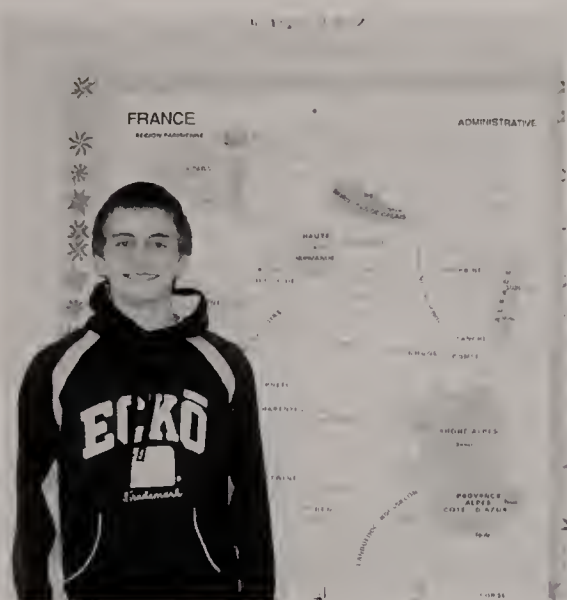

"The light that shines from Mr. Wood's head opens up my eyes every morning. This program really helped me make a lot of friends and become much happier in this high school"

<Fame> Apirak

The Study of language opens the doors to communication, builds bridges among cultures, and makes the whole world your neighborhood.

-Nauset Language Department

"These past three years, speaking French, have expanded my outlook on other cultures. French for life!"

-Taylor Hirst

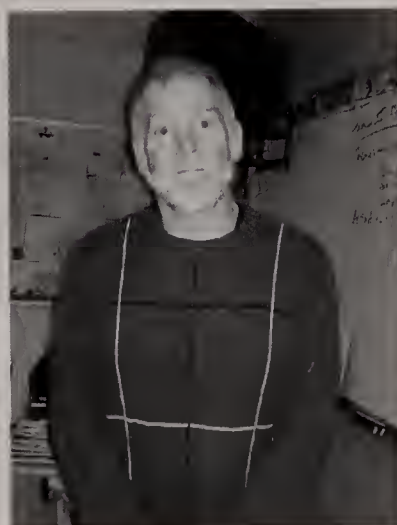

The English as a Second Language class helps foreign students develop English communication and writing skills. Spanish teacher Mr. David Wood has been the district coordinator of the program for about seven years. Students have arrived from all over the world to come to Nauset High School. Senior Wood and English tutor Gale Butcher have welcomed students from the Phillipines to Thailand and have made them feel right at home.

"Beyond the practical benefit of enabling a fuller enjoyment to visit Germany, such as offered by the Nauset German Exchange, learning German offers some unexpected joys of discovery. As one attains an understanding of how German words are formed, and with what versatility they can be altered, one comes to an appreciation of the language's capacity for expressing the most abstract idea in vibrantly concrete terms. It is no coincidence that some of the "edgiest" as well as deepest thought has been articulated in German. If you love breaking with convention and seeing the world differently, German may be for you. It is also, after English, the most useful language for communicating in Northern and Eastern Europe, and in much of the Mediterranean world."

This year the business and technology department introduced a new series of courses called Academies, which are designed for college-bound students who are looking to learn more about potential majors or for students planning to enter right into the business world. All courses are offered as half-year classes in order to give chances for the students to try out several different types of classes so that they might find something that interest them. Courses are also designed to give students enough basic information that they then can take what they have learned in their own lives, and also to give choices for potential summer job, and future career options.

This year has seen much growth for the library with the expansion of laptops available to the students, giving them an even more opportunity for research when the information they need just can't seem to be found in the collection of books available to them. As always, the library is a place where many student faces can be seen, either doing work, lounging with a magazine or book, or just passing the time in the comfortable environment.

The Tempest*

The Nauset Player's began the year with their fantastical presentation of William Shakespeare's "A Midsummer Night's Dream", featuring unfortunate lovers, mischievous fairies, and a rag-tag group of actors. Then, during the winter, the Honors Acting class kept up their skills through preparing themselves for the 77th Annual Drama Guild Competition, where their portrayal of Moises Kaufman and members of the Tectonic Theater Project's "The Laramie Project", took them to their win at the state finals held in the John Hancock Hall in Boston. The Nauset Player's then finished off the year with the traditional spring musical, this years showing of Stephen Sondheim and James Lapine's "Into the Woods," brought them on another adventure into an enchanted, fairy tale-filled, wood.

A chilling scene where Matthew Shepard (Chris Thomas) stands over the interview between his killer, Aaron McKinney (Charlie Crowell) and Sargent Rob Dubree, played by Peter Russell.

Crying out with loss, Evan Pearson portrays the tragic Thisbee, whos beloved Pyramis, played by Law O'Regan-Llyod, is dead.

Keeping The Beat at Nauset

The Music department was
Broadway Bound!!

The POPS concert in March featured music from *Cats* and *Phantom of the Opera*. Many of our very own Nauset musicians have participated in auditions for Cape and state wide competitions. Congratulations to Tessa Hollander-Essig, Trey Voegtlin, Meaghan O'Connor, Megan Ogden, and many others who were selected to participate in festivals on and off Cape. On another note the Honors Chorus traveled to Carnegie Hall in New York City to perform for the public. Nauset is very proud of the music department this year and all of the students that have participated.

Keep up the beat!

Honors Chorus

Performances and fundraisers kept the Music Department very busy this year. Kicking off the new school year was the *Music Department Social* in September. Then came the annual Tree Festival. The chilly December temperatures did not freeze the enthusiasm nor the attendance at this annual courtyard extravaganza.

Honors Chorus had the privilege of traveling to Carnegie Hall in New York City on March 9th to perform "Requiem" by John Rutter. The Honors Chorus then continued on and took the silver medal at the MCCA on April 4th.

March brought the much anticipated Pops Concert to showcase the combined talent of High school and Middle school music students. Finishing off the year came the All-Cape, Senior District, and All-State Festivals.

A Very Busy Year Indeed!!

The Trig-Star program is a math competition that begins in school districts and advances into a national event. The program's goal is to make students more aware of the surveying profession. The students take a timed exam and work to finish as quickly as possible with the most correct answers. The student who wins, advances to states and the winner of that exam receives a prize and trophy and is sent off to nationals. This program is helping to honor students who have exceptional math skills.

Today is your day! You're off to great places! You're off and away! So pack your bags and get ready to leave. The tasks ahead of you, we're sure you'll achieve.

You have brains in your head. You have feet in your shoes. You can steer yourself any direction you choose. You're on your own. And you know what you know. And YOU are the gal who'll decide where to go.

OH! THE PLACES YOU'LL GO! You're on your way up! You'll be seeing great sights! You'll join the high fliers who soar to high heights.

You won't lag behind, because you'll have speed. You'll pass the whole gang, you'll soon take the lead. Wherever you fly, you'll be best of the best. Wherever you go, you'll top all the rest.

KID, YOU'LL MOVE MOUNTAINS! So... whether you use just Julie or LuLu, Julsie or Missy Maloo, we know you'll succeed whatever you do! Today is your day! Your mountain is waiting. So... get on your way!

Dear Nicole-

When you were born, you were perfect in every way, from your beautifully round face to your sound sleep right through the night. We didn't know then about that priceless laugh you have, that determined spirit, that sensitive heart, the amazing athlete you would be, the wonderful gift you would develop in working with children, the challenges you would face and how much you would teach us; yet we were in awe. Now here we are, eighteen years later, and still in awe; not only by what you have achieved but by the inspirational young woman that you have become. God bless you sweetheart. We are so proud of you and we love you!

We hope the days come easy and the moments pass slow,
and each road leads you where you wanna go,
and if you're faced with a choice, and you have to choose,
We hope you choose the one that means the most to you.
And if one door opens to another door closed,
We hope you keep on walkin' till you find the window,
if it's cold outside, show the world the warmth of your smile.
But more than anything, more than anything...

Our wish, for you, is that this life becomes all that you want it to,
your dreams stay big, your worries stay small,
You never need to carry more than you can hold,
and while you're out there getting where you're getting to,
We hope you know somebody loves you, and wants the same things too,
Yeah, this, is our wish.

We hope you never look back, but you never forget,
all the ones who love you, in the place you left,
We hope you always forgive, and you never regret,
and you help somebody every chance you get,
Oh, you find God's grace, in every mistake,
and always give more than you take.

Colophon

This edition of Nauset Tides was produced by the yearbook class at Nauset Regional High School in North Eastham, MA, and was printed by Herff Jones, Inc. in Gettysburg, PA. The account was serviced by sales representative Jessica Ackerson, and customer service advisor, Lisa Kiick.

Our theme, *The Coast is Clear*, was chosen by the yearbook class out of many suggestions due in part to its allusion to our geographical location as well as our completion of four years here at Nauset. The cover was designed by Cassie Goode (Nauset Class of '07) and incorporates a full color image which is lithographed onto a matte laminated black Permocote base. Applied grain is 02 Sand. The endsheets are printed on VC 01 white paper, using black ink and featured laser cut debossing. The book is 7 $\frac{3}{4}$ inches by 10 $\frac{1}{2}$ inches and its 236 pages are printed on 100 lb. gloss paper. This 2008 edition includes 8 pages in full color and 34 spot color pages, which are printed in Ochre HJ123. A large portion of body copy is set in AHJ Opus as are most captions. Headline fonts included but are not limited to AHJ Gillies Gothic and AHJ Deanna Script. Pages were submitted to the yearbook plant on disk.

This edition was produced using Adobe InDesign CS on several different computers of varying capabilities. The majority of images were captured on digital cameras with a 5.0 megapixel capability or above by the yearbook class, as well as professional photographer, Stan Johnson. Underclassmen portraits were taken by Life Touch Studios of Cranston, RI. Five hundred and twenty-five copies of the yearbook were ordered. Additionally, thanks should be given to Amy Martin and Kathy MacDonald for their support in the completion of this edition.

YEARBOOK STAFF

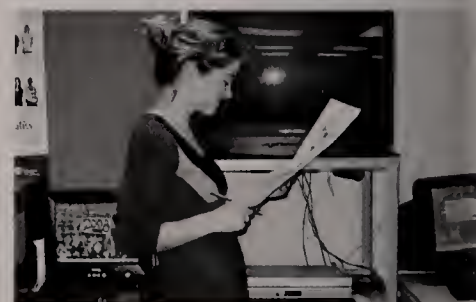

Co-editors, Rebecca Goode and Christina Fancy, were a major part in the production of the 2008 yearbook. Along with doing the assigned class work, they contributed by helping out the staff, and going over corrections and making sure that everything was perfect so that this would be the best yearbook ever!

The 2008 Yearbook is dedicated to:

SWIN

Mr. Swiniarski has shown his dedication to the students at Nauset for the past twenty-one years. He teaches a broad spectrum of mathematics from B level to Advanced Placement classes and is always willing to set aside time for any student who is in need of extra help.

Swin's impact goes beyond his immense academic contribution to Nauset. His enthusiasm extends into involvement in countless extracurricular activities. Throughout his years here, he has been committed to helping out with numerous sports teams, has judged multiple student contests, and chaperoned many of our dances. Swin's dedication has been recognized by multiple awards; including the Most Influential Teacher Award presented by Northeastern University's College of Engineering in 2006, and Teacher of the Year for our region in 2007.

Whether singing creative songs to help his students memorize important math concepts, or running down the sidelines chasing wayward soccer balls, Swin shares an endless amount of his time and energy with the students at Nauset and for this...

The Class of 2008 says thank you.
